RE: RFLMA Contact Record 2011-06

Dear Mr. Surovchak:

The Colorado Department of Public Health and Environment (Department) has reviewed Rocky Flats Legacy Management Agreement (RFLMA) Contact Record 2011-06 in consultation with Region 8 of the Environmental Protection Agency. The road improvement activities proposed in this contact record are consistent with the rationale and objectives of Institutional Controls 2 and 3. The Department has further determined that the proposed activity will not result in an unacceptable release or exposure to residual subsurface contamination, and will not damage any component of the remedy. The Department therefore approves Contact Record 2011-06 and the Soil Disturbance Review Plan attached to it.

As required by Section 4.0 of Attachment 2 of the RFLMA, the U.S. Department of Energy will not conduct these activities until 10 calendar days after stakeholders have been notified of the posting of this contact record on the Rocky Flats website.

Please let me know if you have any questions regarding this approval.

Sincerely,

Carl Spreng
RFLMA Project Coordinator
